

National Accredited Health and Safety Training

IOSH - Managing Safely and Working Safely

IOSH Managing Safely - Over 140 Calderdale and Private Sector Managers have now been awarded this accredited, nationally recognised “Managing Safely” certificate through the Calderdale Health and Safety Team. At the end of each 4 day course the delegates are required to sit an objective short answer test and a practical written project, which is assigned to be completed in their own time. The Calderdale Safety Team are very experienced staff and have ensured a 99% pass record to date.

IOSH Working Safely – This course meets the government’s guidelines for introductory health and safety training for all staff who are not managers. It focuses on why health and safety is important and how individuals can make a difference to the wellbeing of themselves and others with emphasis on the importance of personal responsibility. The course includes a written assessment.

These certificated training courses are designed and controlled by the chartered body the Institute of Occupational Safety and Health (IOSH) and provide any manager or employee with all the basic tools he or she needs to deliver health and safety in any workplace. Please check out these competitive prices now! If you can find anything more competitive please let us know!
