

Environmental Permitting (England and Wales) Regulations 2010 (as amended)

**Application to register a T7 exemption (mobile crushing and screening) with
Calderdale Council**

Note: you must register a T7 exemption if you intend to operate crushing plant to crush bricks, tiles or concrete and if the crusher is a small crusher (generally less than 15bhp). If your proposed activity does not meet the criteria for triviality (for example because the scale of the operation) you will need to apply for an environmental permit. You should complete this form to apply for T7 exemption. Please return it to:

Calderdale MBC
Environmental Health Commercial Team
Northgate House
Halifax
HX1 1UN

The exemption, if granted, will allow you to crush and screen bricks, tiles and concrete. The exemption will cover a specific operation for a specific period of time. You will be required to keep records of the quantity, nature, origin and, where relevant, the destination and treatment method of all waste disposed of or recovered in the course of that operation and keep records of the places where the operation is carried on.

The restrictions that will apply to the operation are that:

- (a) the total quantity of waste treated over any period of 1 hour must not exceed 20 tonnes;
- (b) the total quantity of waste stored at any one time must not exceed 200 tonnes;
- (c) the waste must be stored in a secure place prior to treatment;
- (d) the treatment must be carried on—
 - (i) at the place of production, or
 - (ii) at the place where the treated waste is to be used; and
- (e) the operation must not result in the release into the air of a substance listed in paragraph 6(3) of Part 1 of Schedule 1 except in a quantity which is so trivial that it is incapable of causing pollution or its capacity to cause pollution is insignificant.

Section 1: about you, the applicant

(continued on next page)

Section 2: about the proposed activity

Location

Estimated start date and duration of work

Crushing plant (make, model, serial number)

Type of material to be crushed

Dust suppression to be used (e.g. water spray, hoods/ covers)

Noise control (e.g. bund, restricted hours)

Where will the waste come from?

Where will the waste be stored?

Where will the waste be processed or sent to?

Any other relevant information (use additional sheets if required).

Signed Date

Position

Please note that the crushing of material composed of or containing asbestos is not permitted under an exemption or a Part B environmental permit.
