

**Cabinet Meeting: Monday, 06 October 2025**

**Question from: Ed Greenwood**

**Question to: Councillor Dacre, Cabinet Member with responsibility for Resources**

### **QUESTION**

My attention has been drawn to Calderdale Budget section of Calderdale Dataworks last updated 4 years ago with the last file being year 21/22. It would seem that even the dashboard, supposedly created by OpenInnovations use of the data, is also deficient.

To ask the responsible Cabinet Member to acknowledge the evidence presented above, why it happened, who authorised the deficiency and what action will be taken to reinstate the files in order to align with the Government's Transparency and Democratic Accountability objectives.

### **Response**

Thank you for your question.

I would like to thank you for your question and also drawing this to my attention. This data is not a direct requirement of Transparency requirements and we will review the information currently provided. In the meantime, if it would be helpful to you then I can signpost you to the following link via the council's website where we have published the Council's latest (2025/26 to 2027/28) and all previously approved budget data each year going back to 2020/21 to 2022/23.
