

CALDERDALE METROPOLITAN BOROUGH COUNCIL

**QUESTION UNDER RULE 13 OF THE
COUNCIL PROCEDURE RULES**

Council Meeting: **Wednesday, 26 November 2025**

Question from: **Councillor Ashton**

Question to: **Councillor Durrans, Cabinet Member with
responsibility for Public Services and Communities**

Can this Council please provide the "additional air quality modelling" and also the "additional information provided", (as referenced in a response to a constituents question put to Cabinet during the meeting the took place on the 3rd of November), that informed the 2024 decision to grant the Environmental Permit for a SWIP on the Belmont Industrial Estate.

Does this additional information demonstrate that the site will be in compliance with the Industrial Emissions Directive; thus protecting the health of the public and the environment whilst also addressing the concerns raised by inspector John Woolcock's during the 2023 appeal decision.

Response

All documents associated with the CVSH application are available on the Council website.

<https://new.calderdale.gov.uk/business-services/licences/other/environmental-permits/current-recent-applications/calder-valley-skip-hire>

Under the heading Air Quality Assessment (Appendix E)

See No.4 additional sensitivity testing

And No2. Site specific air quality modelling review undertaken by CERC

It is considered that this information does address Inspector Woolcock's concerns and demonstrates the SWIP plume dispersions will comply with the IED regulations.

NOTE: **Questions under Rule 13 must be in writing and submitted to the Head of Legal and Democratic Services by noon the Friday before the Council Meeting.**
