

**Cabinet Meeting: Monday, 07 October 2024**

**Question from: Cllr E Hey**

**Question to: Cllr Dacre**

Following the Council's decision to dispose of Shelf Village Hall, we've been contacted by a non-profit organisation interested in purchasing the property. As well as using the building to conduct the organisations core objectives, the group's trustees are keen to ensure community access is restarted in Shelf's only accessible location.

In the light of the revelation that the creation of the village hall itself was dependent on donations of land and money from the local community, I would like to ask whether the Cabinet were minded to look favourably on a bid that would benefit everyone in Shelf.

### **Response**

As per officers' recent correspondence with Councillor Martin Hey, officers are currently carrying out background work to consider options for disposal. Officers requested details of the interested group, which have been received from Councillor M Hey, and will contact the group when the option and method of disposal has been determined.
