

Cabinet Meeting: Monday, 04 November 2024

Question from: Cllr M Hey

Question to: Cllr Dacre

Can the cabinet confirm the additional cost of the Employer National Insurance contributions, announced in the budget, for the council as an employer.

In addition, have we been able to estimate the impact on partner and supplier organisations in terms of costs and delivery.

Response

Based upon the information available, the additional NI charges will not be applied to Public Sector organisations including local authorities and therefore Calderdale Council.

We are currently assessing the potential impact on our contractual arrangements with partner and supplier organisations.
