Michael Burnside – Service User

Julie Crabtree & Tracey Pearson of Ravenscliffe School and students

Rita Hindley – Creative Support

Angela Fawcett – Kirklees NHS

Karen Parrish – St Annes

## Action Points from previous meeting

### Questionnaires for Police consultation

- The questionnaires are available so people can say what service they would like. David Grundy will make contact regarding the police making help available for Hate Crime. Ruth from the Police will be invited to our next meeting.

## Whole System Review – Richard Corney / David Grundy

- Richard Corney outlined the review which is looking at:
  - What needs are in the future
  - What services are available now, how they are provided, and how we can provide services with the money we have in the best way
- David Grundy says LD voices need to be heard in this process
- Richard went through figures for LD Services:
  - £22 million spent each year on 697 people
  - 8% are over 65, and more men than women have services
  - 53 people are not living in Calderdale
- **What's Next** – feedback from questionnaires being collected by David by the end of December and meetings will be arranged in January to hold

discussions with people and providers – details of the meeting dates will be sent out to PWLD and providers

### **Clinical Commissioning Group, and Vision Document**

Bev Maybury shared some ideas about the Adults Health & Social Care Directorate's Vision. Bev has worked with the Disability Partnership Group and then the Council's Cabinet who have confirmed their support for the Vision. When the final document is available, an easy read version for people with an LD, and families and carers, will be available (and possibly a CD version). Key ideas and ambitions include:

- Keeping people safe (safeguarding is becoming very important) and how do we help people with a disability, ill health, old age to stay at home as long as possible.
- To work with health partners to get the best funds/money available as by 2014 we will have to save a further 30% of the budget
- The Customer Journey needs the balance to be right and assessments done properly for the correct level of needs. Reviews will be carried out each year.

## Health (local priorities and current health topics)

- **Amanda McKie** from the Calderdale & Huddersfield Foundation Trust gave an update. The NHS internet gives information, there are now accessible documents, VIP passports and information on the Partnership Board.
- She has been to special schools in Kirklees, produced an LD Awareness booklet for A&E staff and all staff have now been on induction training, with 93 staff on communication training and 3 more sessions planned for 2013.
- Easy read documents available about Having an ECG, Anaesthetic and a Bloodtest.
- Objectives: Training about Staff Attitude and Behaviour
  - 54 staff came, as well as 2 or 3 doctors
  - There are now 98 vulnerable adult champions at hospitals
  - An e-learning package will be sent to every Consultant
  - Questionnaires will be given out (by the end of January) for people to choose 3 topics as priorities for 2013
- Amanda McKie will go to a Being Healthy Group meeting
- The Health Sub Group will help to fill in the Health Action Plan.

- Nigel McLoughlin from South West Yorkshire Partnership NHS Trust (SWYPFT) spoke about things happening at SWYPFT.
- The Big Health Day – possibly there could be more local Health Days rather than just one very Big Health Day for the region, also there will be service awards for people working with PWLD and he would be speaking with Consultants and other providers about this.
- The new Clinical Commissioning group – SWYPFT are trying to get as much information as possible to this new group so that they are aware and understand the needs of PWLD.

## SAFE

### **Safe Places, Safeguarding, Winterbourne View**

- Rachel Pickering of the Community Safety Team at the Council worked in setting up Safe Places in commercial places in Halifax. People signed up for a 'Contact Card' with names of venues who would give support.
- Rachel said this would be reinforced and rolled out to other places.
- She had done sessions at Ravenscliffe School with a Town Centre Warden, and they are working at ways of raising awareness and perhaps have re-launch in the New Year.
- Ideas to include Sowerby Bridge town centre and leisure centres as a

venue were mentioned, as well as cards in pubs, etc.

- Rachel Pickering will liaise with Jackie Dolman and the advocacy groups, and the Todmorden Independent Living Group meetings.
- Mark Albiston, the Safeguarding Adults Manager at the Council, spoke about what is happening about safeguarding following Winterbourne:
  - Social Services, the Police and Gateway to Care all now work very closely together
  - There is a named person to contact to cut down on the number of different people to talk to about issues, and as PWLD sometimes feel they will not be believed and need someone that they know who will listen
  - The Vulnerability Group is where safeguarding professionals jointly meet (this includes social services, the police and health).
- About Winterbourne, Calderdale has only a small number of people in private hospitals. All of these people have had a recent review. about Winterbourne and Calderdale. We need to think about a local solution to meet people's needs in our local community.

### **Future LDPB meeting**

- 14 February – Mereside, Shibden
- 18 April – Central Methodist Church, Todmorden
- 13 June – may be Brighthouse Adult Education Centre (to be confirmed)
- 8 August – St Paul's Church, Sowerby Bridge
- 3 October – Mereside, Shibden
- 5 December – Mereside, Shibden
